## Behind the Footlights

### THIRTY PINK TOES HEADLINE THE BILL AT PAN NEXT WEEK

There is a secret about next week's bill at Pantheatre and it has nothing to do with "The Black Secret," in which Pearl White is putting the wool over the eyes of German "intelligence" of-

For Itching, Eruptions, Ulcers, Boils, Pimples, etc.

fores. The mystery concerning the headline act, billed as "Thirty Pink Toes," and whether the aforementioned act is of the male or female persuasion, is a matter of the deepest moment. Manager Jeffrey is mum on the subject, the box office custodian frankly admits he doesn't know, and Stage Manager Bill Watson can hardly wait for the Monday morning rehearsal. Details about the act are as scarce as feathers on a flea's back.

The backstage business, who extract tantalizing melodies from a hard and a violin, at the same time, are added attractions on the excellent bill. Besides Pearl, king of the New York newbies, and his talented little daughter, who will be back again, and the child is said to have it over the cleverest member of the House of Roy like a circus tent. Other acts of rare merit are, the Alaska Duo, in a fancy skating turn; Jess Harrison in song impressions, and Frank Sedgwick and company in "The Hunter's Game." "The Black Secret," starring Pearl White has scheduled its ninety episode. Types of the Day and the Fox Week-ly, will be shown as usual.

## Photo-Plays

**ALIEN.**—The inside workings of small-town politics, and so different from city politics and real politics in the larger cities, are revealed in "The Family Honor," which will be shown at the Allen theatre today and Saturday. The picture is the first of King W. Victor's pictures for First National. The mayor of the town, while openly belonging to the party and social circles and other civic organizations, secretly runs the gambling dens and controls the vice district, collecting through his lieutenant, whom he never recognizes openly.

All the more machines of a rotten political ring are exposed, as well as shown the ultimate direction of the boss and his ring leaders. "The Family Honor" is the story of the romance of a beautiful Southern

Scene from Robt. Warwick's latest feature "The Tree of Knowledge" showing at the Empress today and tomorrow.

Champion "X" A-15, 3/4-inch. Price, 90c.

Adopted by the Ford Motor Co. as standard equipment on Ford cars since 1911.

is Ford's selection and should be yours

Nearly half of the cars in Canada are Fords. Each one left the factory equipped with Champion "X" plugs.

The significance of this fact, and the proved efficiency of Ford cars, speak volumes to spark plug users in making replacements in Ford cars and those of other makes or in trucks, tractors, farm engines, motor-boats, or motor-cycles.

Service dependability is built into our "3450" insulator, which takes, without breaking, punishment and abuse that has been considered impossible in anything but metal.

"Champion" on each insulator is your guide to the world's best spark plug.

# Dependable Spark Plugs

girl, daughter of an aristocratic but impoverished family who punks her brother through college, only to find that he has turned out to be a scamp and a gambler. Caught in a raid in one of the gambling dens in a city, the girl is charged with the murder of an officer killed during the raid. The story of his escape from the harem's clutches, his flight from the law, and his wonderful love of the mayor's son for the girl is one that grips and holds the interest.

**MONARCH.**—Parson fights are becoming famous with motion picture followers, and the announcement that this noted star will be seen on the screen at the Monarch theatre, should bring out big crowds today and Saturday.

The picture is called "The Man Hunter," and is one that has stirring interest from start to finish. Usually one good parson fight has satisfied motion picture fans, but in this picture there are three fights, and all of them rattling good ones.

The story begins in London and ends in New York. In the beginning Mr. Parson, a wealthy man, loses his money through a tricky friend. He goes down into the social depths full of bitterness and longing for revenge. He lives in the cheapest sort of places and even turns longshoreman, making freight on a pier in New York; but the once worthless stock finally makes him very wealthy and he is not only gets his revenge, but wins the girl whom his false friend sought to marry. There are many exceptional images both pathetic and humorous in the story.

**EMPRESS.**—Though Robert War-ning is the star of the new picture at the Empress theatre today and Saturday, the predominance note is the interest, "The Tree of Knowledge." The story is set in Eden for its motif. However, the story is thoroughly modern, in connection with Eve and Original Sin being established as a beautiful prologue.

The main action concerns one Nigel Skayson, a youth destined for the church, who, while traveling on the continent, is lured by a female adventuress named Berie to his ruin. After exhausting his purse, she casts him aside. Plagued through many distressing vicissitudes, Nigel finally is installed in England as co-heir to the estate of his old friend, Brian, an innocent girl, Monica, but fears his position because society. When Brian returns with the brain he has as wife, What follows is full of dramatic action, of which it is sufficient to say that Berie finally appears with a third character and Brian assumes the courage to win Monica's love and forgiveness.

A Max Bennett comedy is on the same program.

**REGENT.**—Today and tomorrow will be the last opportunity you will have to see the Regent theatre's great drama photograph, "Dr. Jekyll and Mr. Hyde," as interpreted by John Barrymore. Everyone after seeing the picture agrees that he is entitled to the honor of being chosen as America's greatest actor. The change from Dr. Jekyll to Mr. Hyde in plain view

upon the screen is genuine and must be considered a great piece of acting. That there is no trickery connected with it makes it all the more amazing. The week-end will no doubt see the Regent crowded to capacity by those who have been unable to see the film during the earlier part of the week. The picture has created considerable discussion in the city during the past week.

**DREAMLAND.**—The story of "The Glorious Lady" Olive Thomas, starring vehicle in which the "glorious star" appears today at the Dreamland theatre, by Mary Murillo and Edmund Gosling. Both of these talented writers have a long string of successes to their credit, but it is claimed that never have they produced a better bit of work than this. It is a story of English life and Edwardian Gosling, himself English born, has embodied in it all the charming lines and quaint customs of his home-land.

**REGENT.**—A stolen Croix de Guerre causes a vast amount of trouble in "The Great Air Robbery," the Universal photoplay which will be at the Regent theatre all next week. The photoplay shows the world-famous aeroplane change in mid-air as made by Lieutenant G. L. Lockhart.

### PENSIONS BOARD HOPE TO PRESENT REPORT ON MONDAY

OTTAWA, June 17.—(Canadian Press).—Members of the special committee on pensions and re-establishment, who are now in the last stages of their work, are hoping to have their report on the issue on Monday. The committee meetings are now devoted to putting the finishing touches on the report and it is expected, if the house sit on Monday to have the report complete then, in which case it will be presented on Monday.

WASHINGTON, June 17.—(Drive on) profiteers in bituminous coal was ordered Thursday by Attorney-General Palmer. All Federal district attorneys were ordered to give special attention to charges of such profiteering and to seek indictment where investigation warranted.

## Secrets of the Movies Revealed

Q. What are said to be the five requisites for success in the movies?  
A. According to such an authority as "Picture Line," they are: 1—Intelligence; 2—breeding; 3—naturalness; 4—photographic fitness; 5—natural expression or talent. The greatest of these, he says, is intelligence. To be a success on this screen one must be imaginative and be able to give facial expression to one's thoughts. In this way only are characters expressed and thoughts photographed.

Q. What movie actress is known to many fans as "Tempest Candy"?  
A. Marie Walcott. She played the part of Tempest Candy in a serial and made such an impression in the picture that many people got the same idea of the actress and the role combined. She recently married her leading man, Arthur Tucker, while making a picture in Japan. His address is Universal City, Cal.

Q. How old are Baby Marie O'Brien, Katherine and Gene Lee, Mary Pickford Fairbanks and Fannie Ward?  
A. Telling the ages, he says, is tedious in a mean trick, but fans must know, so here goes: Marie O'Brien is 22; Gene Lee, 21; Mary Pickford, 34; Fairbanks, 34; Fannie Ward, 34. To whom is one of the few actresses over 30 who does not try to conceal her age.

Q. To whom is Anita Stewart married?

A. Rudolph Cameron, her former leading man.  
Q. This is he known as "kick-ass" man in the movies? born at Champlain, N.Y., and now living at Chicago, Conn., Wyoming; is quick as a flash with a wit-boutlet of a jargon and talks like a college professor.  
A. The answer is easy. There is only one answer and that is Joe Keaton. How does the cost of producing a motion picture compare with that of a stage production? This and a number of other interesting questions will be answered in this column tomorrow.

# THE SOUTH SIDE PAGE

## South Side Plays a Great Part In Re-Preparation of Disabled Men for New Industrial Callings

Schools of The Soldiers Civil Re-Establishment Commission Have Fitted Many For Their New Tasks in Civil Life by Systematic Retraining—To Date Nearly a Thousand Men Have Completed Courses at Vocational Schools of City

In many places throughout the northern section of the province during the last year or two the business life of the community has been augmented by the opening of shops or offices under proprietorship of men who wear modestly the bronze label upon for service in France.

In the majority of cases, were the facts generally known, these men are those who suffered wounds or other disability in the war and are entering lines of occupation entirely different from the business they dropped to serve their country at the front, fitted for their new tasks in civil life by systematic retraining in the governmental vocational schools for returned men.

The schools of the Soldiers' Civil Re-Establishment Commission on the South Side have played a great part in the re-preparation of disabled men for new industrial callings. It is appropriate when these schools are to close their doors within another couple of weeks to review what has been accomplished since they began operations two years ago.

**Thousand Men Re-trained.**  
To date nearly one thousand men have completed their courses at the vocational schools in the city, and in special courses with industrial firms in the city. Another significant fact in connection therewith is that over 90 per cent of these re-trained men have entered the line of business for which they have been fitted and are proving exceptionally capable as a general rule. The work of the S.C.R. vocational branch in Northern Alberta has until recently been under the direction of H. T. Higginbotham with A. R. Nightingale industrial director. Mr. Nightingale nearly two

months ago assumed the duties of vocational director for the north.

In the South Side schools commercial classes for office training, stenography, etc., have been conducted in the Whyte block, with a shop repairing department at the corner of Whyte avenue and 10th street. Market gardening courses have been provided on the university grounds adjoining the Strathcona hospital, the marvelous results obtained last year being heralded abroad by national farm magazines. Pottery raising on scientific and practical lines has been taught in conjunction with the provincial poultry plant on the university grounds. Practical agriculture for returned men planning to go on farms has been conducted in the vicinity of agriculture at the university for two years, the splendid course provided under Dean Howes being the subject of favorable comment generally. In addition a number of men have taken many of the regular courses at the university proper. Only men unfitted by war disability to carry on at their former occupations were re-trained by the vocational branch, with minors under 18 years of age eligible for university courses. During the period of retraining the men have been paid the regular army allowance with separation pay for dependents.

**Industrial Apprenticeship.**  
The list of names of re-trained men hanging over in the offices of the director's office in the McLeod building is rather a revelation to the average citizen who reads not of the work of the vocational branch or of the extent of Edmonton's industrial section. It has been the rule to apprentice vocational students with industrial and mercantile concerns

where a preference was expressed for any particular line of work represented by such industries. In numerous cases the students have remained with these firms where the term of apprenticeship was passed, and in many cases a substantial salary was being paid the student before he had been long with the firm.

The root of graduates shows the data to have completed courses in the following lines:—glazing, grain inspecting, harness repairing, jewelry, lawyers, lens grinding, linoleum laying, general merchandising, motor mechanics (37 graduates with Edmonton firms), motion picture operation, musicians (4 trained), practical agriculture, air brake work, architecture, drafting, barbing, baking, battery ignition, business training (butchers, grocers, etc.), cabinet making, electrical work, (18), gas tractor work, engraving, type writing, repairing, undertaking, upholstering, vulcanizing (12), window dressing, blacksmithing, oxide acetylene work, picture framing, plumbing, photography, printing, practical salesmanship, sign painting, steam engineering, slide making, tailoring, fur dealing, commercial designing, tin-smithing, and other sub-branches of industry. Minors under 18 years of age also obtained practical instruction in banking, butter making, music, dental telegraphy, and in addition to the regular courses provided at the university of Alberta.

**Starting in Business.**  
Many of the re-trained men have taken advantage of the loans provided for industrial purposes

Vocational graduates desiring to open in business for themselves are allowed to borrow up to \$500 for the purchase of tools and equipment for such work, the term of repayment extending over five years, with less time for loans below the maximum. Numerous places of business have been opened in a great number of other centers in the north ranging from Mirror in the southwest to Grande Prairie in the northwest. The business followed also covers a wide field, ranging from law offices to the messenger service which one had started after taking motor cycle lessons and having purchased a machine through the S.C.R. loan.

The staff in the South Side schools consist at present of 6 commercial instructors; 1 poultry instructor; 1 gardening instructor and 2 shoe repairing instructors, all under the direction of Principal W. Jewett, a major in the 51st Batt. With the lapse of nearly twenty months since the signing of the armistice it is obvious that the task of retraining returned men in vocational lines is almost near a finish. There are the schools on the South Side will be closed the first of July. However a certain amount of instruction under the department will still be carried out by reason of the prolonged hospital treatment required in the cases of many men desiring to take up the work left dormant through war disability. These cases will be taken care of the gardening school at the S.C.R. hospital for example to be continued for the remainder of the season.

## Leading Spirits in the Canadian Industrial Congress

"Canadian hospitality—particularly western Canadian hospitality as we experienced and enjoyed it last year at the Alberta Industrial Congress—cannot be surpassed," recently declared Prince F. Mount, one of Chicago's leading business men, and this year the Chicago Association of Commerce will be represented again by a large delegation to the Canadian Industrial Congress at Medicine Hat, Lethbridge, Calgary, Edmonton, Vancouver, and Victoria this June.

Arrangements have been perfected by Mayor M. A. Brown, of Medicine Hat, president of the congress, Sir John D. S. G. O., general manager of Calgary, and Hon. James R. Macdonald, M. P., of Edmonton, and large numbers of prominent business men from Eastern Canada, the United States and England will attend the sessions in Alberta and British Columbia.

Hands across the border, "hands across the sea, closer business relations, a more intimate acquaintance for mutual advantage, and making better known the vast natural resources of Alberta and British Columbia with a view to their further development, are the objects of the Canadian Industrial Congress. The agricultural, mineral and manufacturing possibilities of these two great provinces are still, but little known to the world outside. Big things are being done there now in dry farming and irrigation, mining and manufacturing, but the potential wealth of western Canada has barely been scratched.

The Canadian Manufacturers' Association and the National Association of British Manufacturers will be well represented at the congress which will be one of the greatest events of the kind ever held in Canada.

Mayor Brown, originator and president of the Alberta Industrial Congress last year and president of the Canadian Industrial Congress, is only 36, but is one of Western Canada's greatest business builders. Sir John D. S. G. O. lost his left arm fighting for Canada and civilization in France. Hon. James R. Macdonald is a successful business man and a leader in the provincial parliament of Alberta.

# CITY EMPLOYEE DISCUSSES HIS WIFE'S TROUBLE

Complete Breakdown Followed  
Case of Flu, Says Lewin  
Tanine Proves Merit

"Some wonderful things happen in this world and one of them is the way Tanine has recovered from the flu," said J. C. Lewin, of 2114 Dayton Avenue, Seattle, Wash., a well-known employee in the city engineers' office. Mr. Lewin has lived in Seattle for thirty-three years, and with the exception of his present position, and previous years connected with the city engineers' office.

"For years my wife has been suffering with stomach trouble," continued Mr. Lewin, "and last year she had an attack of influenza that left her in a very weak and run down condition. Nothing seemed to do her any good and she kept on getting worse until she had completed her third year of health. She suffered worse than ever with indigestion, but was not able to eat anything without suffering agonies. Even the smallest bit of food caused gas to form so badly on her stomach that it pressed up against her chest as she could hardly breathe. She had splitting headaches and at times became so dizzy that she could stand up. Her nerves were shattered, that it was impossible for her to get a good night's rest. The least noise would upset her, and every night she had to roll and toss all night long. She flinched at every sound that she could not walk up or down stairs, and in fact could hardly walk at all."

"I had seen so much about Tanine in the papers that as a last hope I decided to get her a bottle of Tanine. I bought a 30-day supply and she started to improve right away. She can eat anything now, and is free of trouble with even a touch of indigestion or stomach trouble. She has gained fifteen pounds, but has the strength to do all of her housework, and says that she feels as well as she ever did."

"I was surprised at the change in her after she started taking Tanine. For I had almost given up all hope of her ever getting well. Tanine certainly put her on her feet, and now she is fully recovered and is able to do all of her work. I am sure that if I have other people who are suffering like she did, will get some help from my statement."

"Tanine is sold in Edmonton by the Great Drug Company Ltd., and in the leading druggists in every town."

## To Have Curly, Wavy Hair 'Like Nature's Own'

In three hours you can have just the prettiest curls and waves. And it requires no long time, when hair is washed and dried before going to the bath. When hair is washed with the hair cream, it is made soft and pliable, and is ready to be styled with a comb. It is so easy to use, and so effective, that it is recommended by all the hairdressers and all the women who use it. It is so effective, that it is recommended by all the hairdressers and all the women who use it. It is so effective, that it is recommended by all the hairdressers and all the women who use it.

# LIBERAL OFFT. CONVENTION

H. H. Dewar Says Liberals Were  
Motive Power Behind Dry  
Govt. Legislation

Hamilton, June 14.—With an enthusiastic attendance of Liberal members from all over the province, the fifth annual meeting of the Ontario Women's Liberal Association opened its session in the Y. W. C. A. with Mrs. Harry Carpenter of this city presiding.

Resolutions were passed that the association form a "Information Bureau for the benefit of women voters," favoring the million-dollar program of Canadianization that the educational system be adequately expanded along industrial, commercial and agricultural lines, and that the media favoring dress reform.

"Some women who are not yet married," said Mrs. Carpenter, "must be born again to achieve Liberalism," and Mrs. Berenice Foster of Woodstock, in leading a discussion on the question, "Why is a Liberal?"

**Liberal Driving Force**  
H. H. Dewar, K.C., leader of the Liberals of Ontario, addressed the convention. He said the Liberal party was the driving power in legislation in Ontario. It was the Liberal party that had introduced the Temperance Act, the Liquor License Act, and the Liquor Control Act.

The association decided to award a scholarship in the University of Toronto to a female student who had been a member of the Ontario Women's Liberal Association for at least one year.

**People's Wish Ignored**  
Hon. J. M. Macdonald, Minister of the Interior, said that the government had not taken into consideration the wishes of the people in the matter of the liquor license.

**Timely Sale, Boys' Wash Suits Reg. \$1.50 for \$1**  
June 1—little boys of 2-12 to 6 years' neat, sturdy wash suits at \$1.00. What a timely sale, indeed!

The arc, with separate belts and straight knickers. Shown in either plain blue or the serviceable linen shade, trimmed with white. \$1.00 Instead of \$1.50

**"CZAR" METHODS AT PENITENTIARY CAUSE OF PROTEST**  
Kingston, Ont., June 17.—Bridgerton General A. E. Ross, M.P., for Kingston, according to an article in the Weekly Standard, has written to Premier Borden, protesting against "czar" methods, which he declares are being used in the Penitentiary at Kingston at present, demanding investigation of the dismissal of officials, and requesting that he be allowed to represent the dismissed penitentiary men.

**General Ross does not deny that the dismissal of some of the men has been warranted, but he says that innocent men shall not be made to suffer.**

**OSCAR'S GIFT \$10,000**  
Montreal, June 17.—Baroness Wedgwood night flew out from the front of the western Canadian Olympic trials in Winnipeg for Wednesday, July 7, to attend the opening ceremony of the games.

**OLYMPIC TRIALS TO BE HELD AT WINNIPEG**  
Winnipeg, June 17.—Details of the Olympic trials have been completed for the opening ceremony of the games in Winnipeg for Wednesday, July 7, to attend the opening ceremony of the games.

**MASONS GATHER AT NELSON, B.C.**  
Nelson, B.C., June 17.—The city is filling up with delegates to the Masonic Grand Lodge of British Columbia, which opens its sessions here on Thursday. Among Wednesday night's arrivals is Hon. W. J. Bowser.

**GOSPEL, HALL, 8th ST. AND 10th AVE.**  
Mr. A. C. Peterson, missionary from Argentina, will speak here on Thursday, Friday, and Saturday, at 8 p.m.

**THIS IS Threat Made by Premier Drury at Farmers' Picnic at Orillia**  
Orillia, Ont., June 17.—Premier Drury made an address at a farmers' picnic here today, and intimated that some of the farmers who were present in Northern Ontario might be called upon to square their accounts with the government, after the present probe is concluded. He said Orillia, which he had visited, was not getting any more revenue from the forests than was New Brunswick, with its very small area.

**Referring to the alliance between the labor and farmer elements in the Ontario legislature, Premier Drury said he did not believe such a party could be formed. It would develop into a people's party, he thought, a party composed of all who are interested in saving what they got and getting what they wanted. The opposition to such a party, he said, would probably be what might be termed the "old line" element, which would be the element of the government, or otherwise, were done to support others to a greater or less extent.**

**WIRELESS OPERATIONS ARE JOINING IN STRIKE**  
June 17.—While it is too soon for the strike or wireless operators to make itself felt, owing to the fact that most of them are at sea, an official of the Wireless Operators' Association declared, Thursday, that the men were joining the movement as fast as they could be persuaded to do so. He predicted that the Maritime, due to sail for New York Saturday, would not leave. Pickens are on duty at the wireless station at New York.

**ACTION ON RESOLUTION IS EXPECTED SHORTLY**  
Washington, June 17.—Action on the resolution authorizing President Wilson to appoint a commission to confer with Canadian federal and provincial authorities regarding the export of pulp wood, which, at the time of the meeting, was expected to be signed within ten days, was expected to be announced Thursday afternoon.

**MEXICAN RAILWAY WILKINS TO OVERSEE**  
Mexico City, June 17.—Orders that the Mexican railway will be turned over to its own government corporation Friday were issued Thursday by the Mexican President Adolfo de la Huerta.
